SUMMARY

I am a web designer and web server administrator with a graphic design background, holding a Diploma in Information Technology, a Diploma in Computer Engineering, a Bachelor's Degree in Information Technology.

I've been a freelance graphic designer since 2016 and a web designer since 2019. In 2021, I joined the University of Energy and Natural Resources as a web designer and web server administrator, specializing in building websites for schools and centers. I have an extensive portfolio, having developed close to 50 websites for individuals and businesses. My expertise includes tools like WordPress, Photoshop, and Figma, and I also develop solutions using PHP, JavaScript, HTML, and Python. I'm also proficient in the Microsoft Office Suite.

My achievements include launching visually appealing and functional websites that have received positive client feedback and contributing significantly to the digital presence of the University of Energy and Natural Resources and other businesses I have developed functional websites for.
